

TVG-38 Frontplate with Plastictrackball

38 mm trackball integrated into a stainless steel front panel with two or three vandal resistant switches.

**Description**

- There is a choice of 2 or 3 key versions, depending on the customer's needs.
- The [Trackball](#) can even be used while wearing gloves, due to the weight of the ball.
- The integrated controller makes the module ready to connect to any PC. No special drivers are needed, as the standard [PS/2](#) or serial driver is used.
- There are versions available in all standard interfaces.

The TVG series can also be changed to become a customer-specific product.

Specification**Mechanical data**

Dimensions:	100 x 111 x 27 mm
